By Order,
HEALTH COMMISSIONER.

PEIGAN INDIAN ARRESTED CHARGED WITH SHOOTING

Following trouble on the Peigan Indian reserve, near Brockton, during which a young Indian named Charlie Crow Eagle was shot and another believed to have been injured in the fight, a man named Hammond, who lives near the reserve, was arrested on a charge of supplying liquor to the Indians. He is in Lethbridge jail awaiting trial.

The wounded Indian is in hospital at Macleod, while the second man has turned up uninjured.

Police were called in from Lethbridge, Macleod and Pincher Creek on the night of the fight, and arrested Tom Escape, an Indian, who is charged with the shooting.

The wounded Indian is reported recovering.

GENERAL ELECTION

ANNOUNCED

OTTAWA, May 7.—Premier Mackenzie King announced Tuesday afternoon in the House of Commons that a general election would be brought on this year, at the earliest possible moment.

Mr. King suggested that he and Mr. Bennett should meet and arrange that the business of the session should be brought to an orderly and speedy conclusion.

The Prime Minister's announcement came immediately after Mr. Bennett had moved his budget amendment where he declared that the Government had lost the confidence of the country. The opposition leader's speech to this effect, said the Prime Minister, made it opportune to say that the election he invited would not long be delayed. It was the opinion of the Government that it was desirable to hold a general election this year rather than await the conclusion of another session of parliament.

ALBERTA MOTORISTS.

BOUND FOR EUROPE.

NOW IN MINNESOTA

(The Calgary Herald)

BEMIDJI, Minn., May 6.—Once clear of the muddy roads of Montana, the members of the Alberta Motor Association-White Star Line tour-of-Europe-by-Automobile party made good time and on Monday covered roughly 425 miles from Stanley, on the western border of North Dakota, to this city in south central Minnesota. All cars in the group had not turned in late Monday night, but were known to be on their way.

The lead car of the tour, a sedan driven by Charles Sartor's, of Blairmore, is making splendid time. This car, in which the Herald correspondent is travelling, reached Wolfe Point, Montana, on Saturday night, fully four hours before the next arrived, and was in this city Monday night, more than an hour ahead of any other. Speed is considered an essential on the trip, as it is planned to spend two days in Detroit and another two in Montreal. The Megantic, the party's ship, sails from Montreal on May 15th.

All members of the party are well and the cars, with the exception of one which had a broken spring, are also in good shape. The A. M. A. tourists, however, are unanimous in warning others from Alberta against that portion of the Roosevelt highway which runs through eastern Montana. In the run Sunday, the party struggled and fought its way through masses of mud which covered practically all this section of the road.

BUDGET FOR BRITISH PREFERENCE

Canada proposes to do her bit toward developing trading with the British Empire, according to the budget presented by Hon. C. A. Dunning at Ottawa on May the 1st. On hundreds of items in the tariff of Canada, rates under the British preference have been decreased. On many of the same items, general tariff rates have been increased. The chances should have the effect of greatly increasing the British preference in the Canadian market. The most important details revealed are as follows:

Duty of New Zealand butter increased at once from one cent to four cents a pound.

Trade agreement now in operation with New Zealand will be terminated on October 12.

Trade agreement with Newfoundland to be announced soon. Long list of tariff changes.

Increases in the general tariff on steel plate and structural steel, with duty lowered under British preference.

A countervailing duty to make Canadian tariff same as country of export on certain commodities, including certain vegetables, eggs and grain.

Under general tariff, 66 items of iron and steel have been reduced and 40 increased. Under intermediate tariff, 56 have been reduced and 24 increased. Under the British preference, 152 have been reduced, eight increased.

Bounty of 49½ cents a ton on Canadian bituminous coal, used in smelting.

Duty removed on British-grown tea.

Reductions in duty on printing machinery.

Reductions on machinery not made in Canada, with increases when made here.

Exemption from tax in case of co-operative companies and associations.

Wider range of exemptions in case of dependents of taxpayers.

Exemptions from tax in case of all donations to churches, schools, hospitals, etc.

Non-resident shareholders in family corporations and directors, officers and employees of Canadian concerns who reside abroad, are made taxable under the act.

Reduction in the rate of the consumption or sales tax to one per cent.

Reduction in rates on the sale of transfer of stock shares.

Charlie O'Neil, High River's hockey ace, has signed to play with Seattle next season. Davie Kemp, of Blairmore, will be with the same team as goalie.

The above news is particularly interesting to friends of Charlie Sartor's, who saw him start away from Blairmore on Thursday, May 1st, in a Chrysler "75" sedan for the 17,000-mile automobile tour of America and Europe.

For Sale

Having been out of employment several months, I am forced to sell my beautifully-toned old Stradivarius model violin, year 1723. Responsible party may have violin for trial, or expert examination. Unless you have at least \$150 cash do not waste your time or mine.

WORLD HAPPENINGS BRIEFLY TOLD

There are 27 aeroplanes in use by the Canadian Government at present. Canada has spent \$8,886 in sending delegations to the International Labor convention at Geneva, since 1925.

Earl Brydges, champion dog team driver of the world, is to become a resident of Ontario and Quebec. He is taking with him the team which sped to the world's title at The Pas dog derby this winter.

Navigation on the Great Lakes officially opened April 28, with the arrival of the "Hamonic," and "Noronic," at Port Arthur, with 3,000 tons of package freight for Western Canada points.

For the eleven months ending February 28, 1930, a total of 406,980 radio licenses had been issued in Canada. Ontario with 201,941 receiving sets leads Canada. Saskatchewan has 131,266; Alberta, 20,574 and British Columbia 34,426.

The results of the Bank of France now hold more than one-sixth of the gold reserves of the world. France stands second in this respect only to the United States. Her present reserves exceed those of Germany, Italy and Britain combined.

So far this year, there have been 29 forest fires break out in British Columbia. The extent of the conflagrations was limited, however, with resultant damage comparatively light. There were 49 outbreaks during the same period, last year.

The body of Robert Bridges, poet laureate of England, was cremated at Gelders Green, with such secrecy, that even the closest friends of the family were unaware of it. The poet's widow and daughter were among the few who were present. There were no flowers.

En route to Mayfair, Saskatchewan, where they have purchased land, Louis Nadeau, accompanied by his family and a brother and sister, arrived at North Portal from Chicopee, Mass. A truck fitted up as a home. They are returning Canadians and made the whole trip by motor.

Industry Growing In Value

The value of the mining industry to Manitoba is strikingly shown in a report of the Manitoba Chamber of Mines, which shows expenditures for the year 1927-28-29 as follows: 1927, \$1,535,619; 1928, \$4,835,183; 1929, \$12,302,228. The wages item shows expenses in 1929 to have been eleven times a great as in 1927.

Endured Years Of Hardships

Austrian Soldier Returns Home, But Is New Italian Citizen

From the little village of Campi, near Trento, Italy, August Lorenzi, 38, departed, 15 years ago as an Austrian soldier to fight the Russians. He has just now returned after years of hardships to his birthplace. An Italian citizen, because his village, by the fortunes of war, became Italian. Lorenzi was captured by the Russians in 1914. He was sent to Semipalatinsk, then to Tömsk, Samarra, Tambov and Goral. He was made to cut down trees until the work broke his health.

Then he farmed out to a miller, with whom he was working at the time of the revolution in 1917. The Bolsheviks sacked the town and burned the mill. Lorenzi fled at night. He passed several years of intense misery until in 1921 he became a farm hand. It was not until the following year he was able to send a letter to his relatives in Campi. He did not then know that the war was over.

The next year, despairing of ever being able to leave Russia, he married the daughter of a farmer. In 1928 the authorities at Campi, through the Italian ambassador at Moscow, began to exert influence to allow him to return. But the Soviet government, because he had married a Russian, withheld his passport for four years. At last they let him go with only eight dollars and a few articles of clothing.

YOUTHFUL AND CHARMING

All Tingey models are created in Paris and sketched by her. The patterns are made and adapted for American patternmakers.

Junior and their debutante sisters will love this smart little frock. It has box-pleating to finish the skirt and swish jauntily about.

The sections giving such a professional effect are merely tricks, and these can be omitted if preferred. Returning to the box pleats again, you will note that these are large enough to keep well pressed quite easily.

While the collar and cuffs of the original model in scarlet reps were of cream wash silk (tie in red silk), they would also be very effective in self material or in spotted and printed designs. Navy and white is always stunning for such models too, while greens, light blues, etc., are nice.

Besides reps, crepe, kaisha, granelia, fine serge, broadcloth, etc., are good.

This pattern may be obtained in sizes 14 to 20. It is ready for immediate delivery. It is hand cut.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

Berlin, Germany, will have 15 exhibitions this year.

Canadian Pacific Offer

Attractive Summer Tours

In your vacation anytime between May 15th and September 30th? If so, why not take one of two very interesting tours—at reduced rates—offered by the Canadian Pacific? Consider first the Eastern Tour and what it has to offer. It will enable the tourist to visit Ontario, with its famous lake resorts, Old French Canada—with its picturesque "habitations," and the Maritime Provinces—with their interesting fisherfolk and their equally interesting craft. The tourist may travel to these places entirely by rail, or may choose to travel some of the way over the cool waters of the Great Lakes on a great white Canadian Pacific Great Lakes Steamship.

Various Ontario resorts at the lakeside provide fishing and bathing and, in fact, all summer sports. Niagara Falls, the beauty of which attracts so many people from all parts of the world, is only one of the many scenic features of the tour. One may, on this eastern excursion, visit Old French Canada. There the traveller will see the many picturesque Catholic shrines that are scattered along the shady Quebec country roads, the "habitations" rolling past on their quaint wicker drawn by oxen. In Montreal the visitor will find the contrast. There, drawn up at the dock, is the latest ocean liner—a product of the new world, which stands under its very shadow is the Bonsecours Market, where the French "habitants" sell their fair produce just as their relations in the old land. Then again—the excursionist may resolve to pass on as far as the Maritimes as far as St. Andrews where golfers and artists meet. In proportion to its size, there are more beautiful homes and more prominent visitors in St. Andrews than any other town in Canada.

There is Digby, Nova Scotia—the fishing centre; Parrishboro—the Possum of Nova Scotia; Yarmouth and Weymouth—two more shipping centres and Old Orchard, Maine—a famous bathing resort.

PACIFIC COAST

Another fascinating excursion is that to the Pacific Coast. This allows the excursionist to see the majestic scenery associated with the Canadian Rockies, to see beautiful Lake Louise, to enjoy a round of golf over the famous course at Banff Springs, or to stay at the hotel on the shore of the famous Lake Louise. The scenery that is offered. One of the chief features of this tour in the nature of a side-trip, is a twenty-four hour motor tour which takes the visitor to the famous Banff-Lake Louise region, through the Kicking Horse Pass to the Yoho Valley, perhaps the most glorious and varied motor trip that has ever been offered on this continent. Then on by train through the picturesque British Columbia with its multitudinous industries to Vancouver. After Vancouver—Victoria, the capital of the province, renowned for its scenic resemblance to the old County of this city, the famous Colwood Golf Course, the Dominion Astronomical Observatory, the second largest telescope in the world, and Butchart's sunken garden, are the chief attractions. At Victoria, two famous excursions are offered: a ten day cruise to Alaska and a seven day cruise of the West Coast of Vancouver Island. To those whose vacation period is short, the famous Canadian Pacific "Travelers' Limited" will prove valuable for speedy travel. It is equipped with luxuriant steel sleeping cars, with sun lounge, women's lounge and bath, men's bath, smoking room, buffet with soda fountain, observation lounge and a valet service. It is finer and faster than ever, and the equipment of each train entails an investment of over a million dollars.

Canada Large Exporter Of Gypsum Products

Has Developed Trade With Thirty-Five Other Nations

A European trade conference dealing solely with Canadian gypsum products is scheduled to open in London, on April 30th, says R. E. Haile, head of Gypsum, Lime and Alabaster, Canada, Limited, who points out that, "in three years' time trade in Canadian-made gypsum products has developed with 35 other nations and has increased so rapidly that the company has now become the largest exporter of the materials in the world."

Dairy Production Higher

According to L. A. Gibson, provincial dairy commissioner, the winter dairy production in the province of Manitoba for the first two months of 1930 has been the highest in the history of the province, an increase for January of 0.9 per cent, and February 6.4 per cent, over 1929.

Germany's New Idea

A novel experiment in prison life in which "high grade" prisoners will be given two weeks' vacation a year, permitted to accept work from outside employers and given a share in the management of the prison, is about to be tried out in Germany.

Captain Franz Romer paddled a rubber boat from Lisbon, Portugal, to St. Thomas, Virgin Islands, 3,944 miles in 86 days. He was without escort and did not know how to swim.

New York University Given Valuable Papers

Early English Legal Documents Date Back 700 Years

A collection of more than 400 Early English legal documents, some of them dating back 700 years, but presented to New York University by Judge Moses H. Grossman in the name of Frederick Brown, real estate operator and philanthropist.

Among the collection is a 12-foot parchment "pipe-roll," made of a series of skins sewed together and originally kept in a metal tube. It records that a sheriff, Richard Pyle of Southampton County, collected Crown revenues in 1338 "from the Jews for protection from being defrauded from the knights," and "from the knights for license to defraud the Jews."

Recipes For This Week

(By Betty Barclay)

CREAM OF POTATO SOUP

4 medium potatoes.
2 slices onion.
2 strips bacon.

Wash, peel, cut in cubes, and cook potatoes in enough water to cover until tender. Rub through a strainer. There should be 2 cups mashed potatoes and liquid. Add this mixture (left-over potatoes may be used) to 3 cups of thin cream sauce (3 cups milk, 3 tablespoons flour, 3 tablespoons butter). Season to taste. Add 2 tablespoons chopped parsley before serving.

A different flavor may be obtained by adding catsup, leeks or celery instead of onion. Cut leeks or celery in very thin slices crosswise and cook in with the potatoes.

KIDDIES DELIGHT

3 cups milk.
3 eggs.
4 tablespoons sugar.
1 teaspoon vanilla.
1/2 teaspoon salt.

Few grains nutmeg.

Beat the eggs until very light. Add the sugar, salt, vanilla and spices, then the milk. Stir till the sugar is dissolved, then beat well. Serve cold.

To carry away static electricity from oil trucks, iron chains that dangle to the ground are fastened to the frames.

SUNDAY SCHOOL LESSON

MAY 11

JESUS ACCLAIMED AS KING

Golden Text: "Hosanna to the Son of David; Blessed is He that cometh in the name of the Lord; Hosanna in the highest."—Matthew 21:9.

Lesson: Matthew 20:30 to 21:46.

Devotional Reading: Hebrews 1:8-12.

Explanations and Comments

Preparations For the Triumphal Entry, 21:1-6.—When Jesus and the crowd with Him approached Bethphage, on the Mount of Olives, not far from Jerusalem, He sent two disciples on ahead to make preparations for entering the city, bidding them find in the village an ass tied, and a colt with her, which they were to loose and bring to Him. If the owner objected they were merely to say: "The Lord hath need of them," and would send them. The horse was the symbol of war; the ass the symbol of the Prince of Peace.

The Triumphal Entry, 21:7-11.—The disciples followed instructions and brought the ass. They tied their loose outer robes upon it for Jesus to sit upon, and the multitude with them spread their garments in the way or cut branches from the trees and spread them down for Jesus to travel over. "Some have ridiculed the idea of offering incredible obstructions and dangers; and yet the orthodox custom of Jesus to ride upon a palm tree, or cause of John 12:13, it has been generally supposed that the branches were palm branches, although John only mentions the fact that the people came out from Jerusalem to meet Jesus with the shouting of praise. We know from Revelation 7:9 that palms were carried as symbols of victory over sin and Satan."

John tells us that many people, excited by the news of the raising of Lazarus (which occurred) hurried from Jerusalem to meet and do honor to Jesus, while following with Jesus was this other multitude of Galileans on their way to Jerusalem to keep the Passover. Both crowds united in crying: "Hosanna to the Son of David."

Canadian Literature

Efforts Of Our Writers Should Receive Loyal Support

The Sherbrooke Tribune says: "Many a man will pay fifty or seventy-five cents for some trashy American magazine, because he cannot make up his mind to buy a single Canadian book. Often enough, moreover, these are the very people who on every possible occasion proclaim their patriotism and their attachment to the things of their own country. Either they are utterly insincere, or their taste is pitifully deformed. The very real efforts of our writers to endow our country with a rich literature, solid and diverse in character, deserve better treatment than this."

Physicians have stated that a cough or a cold that lasts more than three weeks merits a general physical examination.

England obtained the pattern for her early churches from missionaries from Italy.

Some men make a specialty of getting into trouble.

DO YOU SUFFER FROM CONSTIPATION?

Countless remedies are advertised for constipation. Many relieve for the moment but they are habit forming and must be continued. Others contain calomel and dangerous mineral drugs, which remain in the system, settle in the joints and cause aches and pains. Some are harsh purgatives which cramp and grip and leave a depressed after effect.

A purely vegetable laxative such as Carter's Little Liver Pills, gently touches the liver, bile starts to flow, the bowels move gently, the intestines are thoroughly cleaned and constipation poisons pass away. The stomach, liver and bowels are now active and the system enjoys a real tonic effect. All druggists 25c and 75c red pigs.

Important Letters Now In Dominion Archives

Canada Has Most Of Letters Signed By Sir John A. MacDonald

The first public document signed by Sir John A. MacDonald has been added to the voluminous collection of his papers gathered together by Dr. A. G. Doughty, curator of the Dominion archives. It is an affidavit signed by Sir John on October 6, 1834, upon his appointment as a poll clerk in the Upper Canada election in Prince Edward county. He was 19 years old at the time.

With the receipt of this letter, the Dominion archives now houses most of the important letters written by the first premier of Canada. Among the papers is the first draft of the British North America Act, in Sir John's handwriting.

Parachute Opens Itself

Was Pronounced Success In Test At Curtiss Field Recently

An automatic parachute, which opens of its own accord, after a jump, was demonstrated successfully at Curtiss Field by John Rungger, a professional parachutist. Rungger, his hands tied behind him, jumped from a plane at 2,000 feet. He landed safely in a tree.

So pleased was Rungger with the chute that he said he would jump from 20,000 feet with one. It was invented by John Ruby.

Would Rotate Building Stones

Suggesting that the various Canadian stones be used in rotation on projected Federal buildings, the Industrial Development Board of Manitoba has devised a plan to lay before the Dominion Government in which it is urged that future plans for building operations take into consideration the possibility of having various Canadian stones used in rotation, including the Manitoba Tyndall stone.

One of the attractions at Cannes, France, is a woman who lives on ground glass in a glass cage.

The world produced 1,323 million barrels of crude oil in 1929.

Make Your Windows Pay

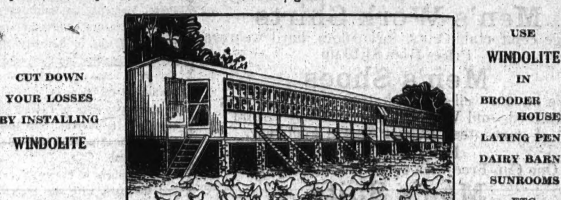

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MA'D IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keep out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

When Babies FRET

There are times when a baby is too fretful or feverish to be sleeping. There are some pains a mother cannot pay away. But there's no time when any baby can't have the quick comfort of Castoria. A few drops, and your little one is soon at ease back to sleep almost before you can slip away.

Remember this harmless, pure vegetable preparation when children are ailing. Don't stop its use when Baby has been brought safely through the age of colic,

diarrhea, and other infantile ills. Give good old Castoria until your children are in their teens! Whenever coated tongues tell of constipation; whenever there's any sign of sluggishness that needs no stronger medicines to relieve. Castoria is pleasant-tasting; children love to take it. Buy the genuine—with Chas. H. Fletcher's signature on wrapper.

Miss Lizzie rocked violently for a moment, while she wiped her streaming face with a corner of her apron. "I didn't seem to have a headache," she gasped. "Maybe I dropped it on the way."

"This seems to be your day for dropping things," smiled Grandma. "I saw your petticoat come off last night."

"I hope to goodness no one else saw it," replied Miss Lizzie. "Since I got so fleshy my petticoats all need new bands, and I ain't had time to fix 'em. I had a piece of string run through that buttonhole, and it went and busted on me. I was thankful I hadn't got as far as the meat market where I was, or 'twould have been all over down by now. Well, Grandma, I've got some news—more news than Wickfield's seen since Noah boarded the Ark: Edgar Purdie is suing Luella Moore, over to South Wickfield, for breach of promise! He's got evidence that he gave her a costly present and she won't return it after refusal to be his wife! Now what do you think of it?"

"I think Luella's got more sense than I gave her credit for," responded Grandma. "A woman that's smart enough to get any sort of present out of Edgar Purdie, deserves to keep it. Did you hear what 'I was he gave her, Lizzie?"

Grandma was so absorbed that she didn't notice a near-dog-light across the street.

"It was beads," replied Miss Lizzie promptly. "A long string of 'fancy yellow beads that cost the deacon a week's pay or more. Oriental, he called 'em; though Sarah Bennett, who sees 'em with her own eyes, says they don't look no niter better than what you can get at the five-and-ten-cent store up in Portland. Seems the deacon carried 'em with him when he asked her; and like a fool he gave 'em to her first, 'cause he thought they'd sort of pave the way for intentions; and accordin' to him she seemed real pleased—and yellow was her favorite color, and let him fasten 'em around her neck himself, so—What you Jimmie?"

"'Broke off Miss Lizzie, as the old lady suddenly gave way to mirth. "I was only thinking how silly Edgar Purdie must have looked when he fastened those beads around Luella's neck. Go on, Lizzie. Did he ask her then?"

"I presume he did, it bet'n' what you might call the proper moment; but accordin' to him she sort of put him off. And here's where the trouble commences—trouble for Luella, I mean. She let him kiss her! Of course he went off thinkin' it was good as settled; but when he drove clear to South Wickfield next evenin' for a little love makin' after the children was in bed, she's changed her mind! They had words, and he asked for the beads back and she wouldn't give 'em up—and he'd made her a present of 'em, and so fur's she knew there wasn't no string tied to it. He come away madder'n a wet hen, and went to get the law on her. And next mornin' he put the case in Lawyer Garfield's hands. He's suit' for two thousand dollars and possession of the beads. They say Gam Garfield tried to calm him down, but he wanted to settle it out o' court, if Luella's reasonable. Now did you ever hear the best o' that?"

"No," replied Grandma, soberly. "I never did. But what'd Edgar Purdie do with those beads if he gets 'em back, I'd like to ask? He can't wear 'em himself, Lizzie, and they wouldn't be any special use in a missionary barrel, which every one in Wickfield knows is the only charity he ever gives to, and that only because he

can get rid of his worsted clothes and credit for being charitable at the same time."

"I guess but what a string of beads would be more use to the deacon than that old silk hat he donated last time we packed a barrel," answered Miss Lizzie. "It took up a powerful lot of space, though, and cracked butter did inside it, and some wooten stockings. Savages are partial to beads, so I've always heard, so like as not the heathen are, too; and the beads would cover a little of their nakedness, which a hat wouldn't."

Grandma's lips twitched with amusement as she replied: "Somehow, Lizzie, I don't think Ed Purdie is counting on giving those beads to the heathen. Luella Moore isn't the only pebble on the beach, as they used to say, and if he won't have him, he's likely to look further. Maybe he'll ask you."

"Me?"

In her indignation Miss Lizzie tried to rise, but as she was what they call "fleshy" in Wickfield, and the chair was a small rocker with arms, which showed a tendency to rise with her, she sank back helplessly, and said: "I'm astounded of you, Grandma! Why, I wouldn't take Ed Purdie, not if he were covered entirely with beads like the bag that city women carried to the strawberry festival."

"There! there!" soothed the old lady. "I didn't mean to get you all stirred up. If he did ask you, Lizzie, it would be the only sensible thing he's done since he asked his first."

"Well, might the caller, relating enough to smile at this tribute, 'I dunno but what you're right, though so fur's I know, no man has ever agreed with you. P'raps it's just as well. I've always thought a proposal would be a terrible embarrassing thing to live through."

Grandma's eyes twinkled. "So it might be, Lizzie, under certain circumstances," she admitted. "You got to go this quick," as Miss Lizzie made another effort to leave the chair. "If Charman was only home I'd ask you to stay to dinner; but I guess we won't have much but a pick-up. She's gone over to South Wickfield with Jim Garfield, to collect a mortgage or something."

"I see 'em start." With a firm wrench Miss Lizzie extricated herself, and arose. "I'm glad that Jim has come to his senses and dropped that Darning girl. He ain't taken her out but once since the strawberry festival, and then his mother, I've heard, he supped and he had to beat her home, and she leaves town the day of the week. I declare, Grandma, it'll be a load off my mind, havin' her go. That green hat is a blot on the landscape, and when I see that doctor of yours walkin' home with it after night time last night, I decided 'twas time to do something about it, or my name's not Lizzie Ann Baker."

"Did he walk clear to the house with her?" questioned Grandma eagerly.

"That he did! And lallygaggered around the gate for fifteen minutes. Mrs. Merry says she's a vampire, whatever that is—nothin' respectable. I'll be bound, I mean to look it up in the dictionary, but I clean forgot. Dear me suz! I wish Ed Purdie would ask her!"

"My stars!" breathed Grandma, awed before this inspiration. "I wonder he hasn't thought of it himself. Lizzie, there's no fool like an old fool; and those yellow beads would have been real becoming to that Darning girl. Thanks for bringin' me the news, suz, but don't you run so fast again or it's likely to be a matter of life and death—to you."

(To Be Continued.)

Storekeeper: "Shall I draw the chicken for you, madam?"

Young Bride: "No, thank you. Your description is quite sufficient."

FROM MOTHER OF EIGHTEEN

Read How This Medicine Helps Her

Cardston, Alberta.—"I am fifty-eight years old and the mother of eighteen living children. We live on a farm and I am a very healthy mother considering that I have such a big family to take care of. The druggist first told me about Lydia E. Pinkham's Vegetable Compound and have depended on it for many years."

When I had this picture taken, the photographer was telling me about his wife's ailments and after I told him about the Vegetable Compound he went to the drug store and bought the two bottles. Mrs. BEATRICE CALLENBACH, St. Cardston, Alberta.

HEADACHES

Needless pains like headaches are quickly relieved by Aspirin tablets as millions of people know. And no matter how suddenly a headache may come upon you, you can always be prepared. Carry the pocket tin of Aspirin tablets with you. Keep the larger size at home. Dead-end proof directions for pain, headache, neuralgia, etc.

Vienna Uses Science

In Detecting Criminals

Can Convince Man Who Believes He Has Left No Trace

Some may be inclined to smile at the idea of Dr. Wilhelm Derron of Montreal, of a criminal laboratory for Ontario, but it is a valuable suggestion. Science has played an important part in murder trials, particularly in poison cases and in the analysis of spots of blood, but a criminal laboratory can go much further than this.

In no country has science been developed to such a fine art in criminal detection as in Vienna. Here is a case in point.

A man was found murdered with a pocket knife in his heart. The owner of the knife proved that it was stolen from him some months before, and that he had nothing to do with the murder. The knife was turned over to a professor at the university, who took it to pieces and analyzed the debris which had collected between the blades from the pocket of the man who had been carrying it. He found tiny pieces of twist from the lining of the coat pocket, and came to the conclusion that the coat was of a kind of yarn used by English manufacturers in the making of what are called "Norfolk coats."

With that clue, the police set about finding a Vienna tailor who sold English suits of that kind. They found him, and then by examining his books they checked up on the movements of the man who had been carrying the knife. They found him in the city of Norfolk suits within a certain time. Ultimately, they laid their man by the heels and he was convicted.

A criminal laboratory can convict a man who has committed a crime without leaving any trace.

Displayed His Originality

Mark Twain Strated Literary Career On His Brother's Paper

Long-sought newspaper files containing original first works of Mark Twain's famous humorist, and described by him in his autobiography as representing "my first literary venture," have at last been discovered, in Hannibal, his native home. They reveal the boy, Sam Clemens (Mark Twain), in his teens, as substituting as editor of his brother's newspaper there, and striving to "liven up" the columns of the paper with his wit. His methods reveal him as even then richly possessed of the industry by which he has substituted his famous fiction characters, Tom Sawyer and Huckleberry Finn.

The return of Orion, to discover that his young brother had been making the paper "spicy," is indicated in an editorial, by the editor, May 13, 1853, saying that "Rambler and his enemies must stop their stuff." This editorial edict seems to have ended Mark Twain's fun, and what probably were his very first literary and journalistic efforts.

Was Queen Alexandra's Friend

Honorable Charlotte Knollys, companion and intimate friend of the late Queen Alexandra for more than half a century and one of the best known figures in court circles, is dead at the age of 86. Queen Alexandra frequently referred to her as "my beloved Charlotte," and on one occasion created a precedent by refusing to leave London for Sandringham at Christmas time because of the illness of her friend.

Tatt's Will Filed

The will of William Howard Taft, former president of United States and former chief justice of the Supreme Court, has been filed. It leaves most of the estate to his widow with the exception of a few individual legacies.

Count Tolstoi, the Russian author, always went hatless and barefooted no matter what the weather.

Pompous Person (having collided with small man)—I wish you'd look where I'm going, sir.

Minnard's Checks Falling Hair.

Made Long Journey

Term Banded In Labrador Was Seen In Southern Africa

A common term, member of the gull family, was banded in northern Labrador by Oliver H. Austin, Jr., in July, 1928. Fourteen months later it was seen and examined at the southern tip of Africa on the Indian Ocean, 9,000 miles away, which is thought to set a record.

The term, or sea swallow, is usually smaller than the gull. Its bill is more slender, its feet not so strong, and its flight more graceful and dashing. The common term is pure white with a cap and mantle of dark grey and is sometimes hunted for its feathers. The all-white species live on Pacific islands; those with darker coats are widespread.

KEEPING BABY

LOVELY AND WELL

Some babies thrive from the hour of their birth while others make no little progress as to be the cause of much anxiety. As a rule it is the digestion that is at fault with these backward ones and they start to go ahead directly Baby's Own Tablets are made the corrective of their stomach and bowel troubles.

Baby's Own Tablets are specially designed for the use of babies and little children. They are absolutely safe and the mother can feel perfectly secure in giving them to even the most delicate child. They are a mild but thorough laxative which banish constipation and indigestion; break up colds and simple fevers and allay the pains which accompany the cutting of teeth. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Fame Is Transitory

People Who Perform Unimportant Exploits Soon Forgotten

An English adventurer proposes to dive off the Ambassador Bridge at Windsor, a distance of 160 feet above the water. The honor to be won by such exploits is extremely transitory, as was proved in the case of Steve Brodie. A gentleman once took his son to the spot on the Brooklyn Bridge from which Brodie had made his celebrated leap and said: "Yes, my boy, this is where Brodie jumped off the bridge." "Jumped off it?" echoed the boy. "I thought he jumped over it."

Worms cause fretfulness and rob the infant of sleep, the great source of mother's grief. Worms cause the child to lose his appetite and the mother will clear the stomach and intestines and restore healthfulness.

A Calgary aviator flew his plane both ways over the highest peaks of the Rockies. The man who does things happen the more veneration we have for the men who went through them and over the Rockies with dog-team and pack-sack.

Interested In Grain Show

The commissioner of agriculture of the state of Montana writes that there is much interest in the World's Grain Show in that state. The officials are encouraging growers to enter the contest most wholeheartedly and to begin the preparation of exhibits this season.

Magma Loc. In Hawaii, is the largest active volcano and mountain in the world.

If Skinny, Beware, Says Doctor. Gain Quick

New Ironized Yeast Adds 5 to 15 Pounds in 3 Weeks. New Health, Strong Nerve—No Cost

"Skinny folks subject to many grave diseases," says an eminent physician who adds that they lack reserve strength and many die. Don't run risk of dangerous disease from deficiency of Ironized Yeast adds 5 to 15 lbs. in 3 weeks. Ends nervousness, constipation, indigestion over night. Clears skin like magic. New pep first day.

Two great tonics in one. Weight-building Malt Yeast and strengthening Iron. Far stronger than unmedicated yeast. Results in half time. Get new health and weight quickly. Get pleasant tablets of Ironized Yeast from druggist today. Feed great tomorrow. If not delighted, manufacturer refunds your money.

Little Helps For This Week

"They that seek the Lord shall not want any good thing."—Psalm xcix. 10.

Father! replenish with Thy grace This longing heart of mine: Make Thy Thy quiet dwelling-place. Thy sacred, inmost shrine! Forgive the faults of my spirit; wash Her time and strength in trivial cares; Enfold her in Thy changeless peace, So she may all but Thee shall cease, —Angelus Silesius.

God is Alpha and Omega in the great world; endeavour to make Him so in thy little world. Make Him thy evening epilogue and thy morning prologue; practise to make Him thy last thought at night when thou sleepest, and thy first thought in the morning when thou awakest; so shall thy fancy be sanctified in the night, and thy understanding rectified in the day. So shall thy rest be peaceful, thy labors prosperous, and thy death glorious.—Quarles.

It Testifies For Itself.—Dr. Thomas' Electric Oil needs no testimonials of its powers other than itself. Who ever tries it for coughs or colds, for rheumatism, for sprains or burns, for pains in the limbs or body, well know that the medicine proves itself. It needs no guarantee. This shows why this Oil is in general use.

CHAPTER X.—Continued.

Long after the dust raised by Jim's car had vanished, the old lady still watched the road at the point where he and Charman had turned to wave.

"Well," she sighed, "all end of wish. I know how I'll kind. I can't help being fond of Jimmie. He's a good boy, and he'll make some woman a splendid husband—that is, if she's not too fantastical in her way of thinking. Sometimes I believe he'll all there is the matter with him is just being tied too close to Wickfield. There he was, all ready to go to Harvard along with Billy Knowles, and that fool of a Sarah Bennett took on so about his leaving her that he gave it up and went into the bank instead. What Jim needs is a fresh outlook, but dear knows when he'll get it unless his mother should be removed by a merciful Providence, and she's uncommon healthy."

At this point Grandma's thoughts were interrupted by Lizzie Baker's Persian cat, which, being vigorously chased by the Merry's Gypco, took refuge in a horse chestnut tree across the way.

"No need of you standing there glaring at her, Gypco," admonished Grandma. "The good Lord knows what he was about when he gave puss her claws. That's it, you dig up a bone and go along home peaceable, there's a good dog. I expect that cat'll die of heart failure some day."

Grandma nodded for a moment, and when her eyes opened her thoughts had returned to Charman, Jim Bennett, and their problems.

"If Jimmie could only get no he'd see things the way she does—poetry, and mirth, and small-paned windows in old houses," she mused. "He would be all right. . . . Now that young doctor, he understands without explaining. . . . If Charman let the biscuits burn while she watched a sunset (though come to think of it she never did do such a thing), why he'd just laugh about it. He's good-natured, and not too fussy about what he eats. I've no doubt he'd make her a more suitable husband than Jimmy Bennett would."

He's more her sort . . . and yet Good land altho! she broke off suddenly, "here comes Lizzie Baker on the run! I wonder is the Town Hall burning. I haven't seen her run for fifteen years!"

CHAPTER XI.

"What's happened?" asked Grandma, as her old friend puffed into the room and sank down breathless on the nearest chair. "You shouldn't run at your age, Lizzie, heavy as you are. Have you had bad news?"

A BLAIRMORE WOMAN'S
ESSAY ON MAN

A boy can sit on a sled six inches square, tied to a sleigh moving eight miles an hour, but couldn't sit still on a sofa five minutes for a dollar.

A man will sit on the edge of an inch board and talk politics for three hours; put him in a church pew for thirty minutes, he gets nervous, twirls and turns and goes to sleep.

A man will parch his cheeks with filthy tobacco, and with juice running down his chin he feels good; but a hair in the butter kills him. He stays out till after midnight, wife doesn't know where he is, comes home when he pleases; but if a meal is not ready just on time, he pouts, frowns and says unpretty things. Evidently, man is a strange animal.

Yes, he gets full, heavily drunk, imagines he's rich, a great man, bets on the losing horse, gets broke, quarrels, fights, lands in jail, eyes dressed for Easter, face freckled, morals depraved—yet he is lord of all creation and monarch of all he surveys. Strange animal, this man.

SONGS OLD AND NEW
WILL BE HEARD IN
"NO. NO. NANETTE"

The screen production of "No. No. Nanette," which opens at the Orpheum Theatre Thursday, Friday and Saturday, will contain song hits from the original stage show as well as many new numbers which have already attained great popularity since the recent release of this colorful First National picture.

"Tea For Two" and "I Want To Be Happy" from the footlight production will be heard in the Vitaphone edition, sung by a chorus of 150 and the two featured leads, Bernice Claire and Alexander Gray. These two songs were among the country's best sellers when "No. No. Nanette" was having its sensational success on Broadway.

The b/s number of the picture, however, is "King of the Air," by Eddie Ward and Al Bryan, one of Hollywood's most harmonious song-writing teams. Three other numbers based on lavish scenes in the film are "Dancing on Mars" by Michael H. Cleary, Ned Washington and Herb Magidson; "The Japanese Ballet," by M. Jerome and Herman Ruby; and "The Dance of the Wooden Shoes," by Cleary, Washington and Magidson. And also there are "Pretending," by Ruby and Jerome and "As Long As I'm With You," by Harry K. Akst and Grant Clarke.

"No. No. Nanette" is one of the most lavish pictures ever produced at the First National Studios. Four of the big sequences—the Holland, Japan, New York, and Mars episodes—each cost more than the entire original stage production.

The cast of noted players includes Lucien Littlefield, Louise Fazenda, Lilian Tashman, Bert Roach, Zasu Pitts, Mildred Harris, Henry Stockbridge and Jocelyn Lee. Clarence Badger directed and Harry Ceballos was in charge of the dances.

The teacher asked a small boy to give a sentence with the words "Analyze" and "Anatomy" in it. This is what he produced:

"My Analyze over the ocean,
My Anatomy over the sea;
O who will go over the ocean
And bring back my Anatomy."

AMATEUR ORCHESTRAS

The amateur orchestra competition closed the afternoon session, playing the "Muset" from the Military symphony by Haydn, Hillcrest Amateur Orchestra, under the leadership of W. H. Moser, and the Lethbridge Amateur Orchestra under the leadership of George Brown, taking part. The audience enjoyed this competition very much. The latter won with 77 marks while the Hillcrest orchestra received 72, but very favorable comment was given them and Dr. Willan said they suffered in comparison through lack of variety of instruments.—Lethbridge Herald.

SULLIVAN MINE LIFE
EXTENDED BY DISCOVERIES

VICTORIA, B.C., May 2.—The Consolidated Mining and Smelting Company of Canada has informed Hon. W. A. McKenzie, Minister of Mines, that vertical diamond drilling driven 1,000 feet below the 3,900-foot level of the Sullivan mine, which is the lowest working tunnel at the present time, had cut the ore body and found it of commercial grade and size. Owing to the dip of the vein, this establishes that the ore body extends over 2,000 feet below the present working tunnel.

Another announcement is that the plant for the manufacture of fertilizer in the form of triple super-phosphate would be ready for production in 1931, and that distribution would be made in the spring seeding of that year.

This announcement indicates that the life of the Sullivan mine, already the greatest zinc mine in the world, has been extended indefinitely. It means that the ore body may develop to be ten times as great as has previously been estimated.

Government departmental officials regard the announcement of Mr. Warren as the most important concerning the British Columbia mining industry in more than a decade.

A few days ago, a local district medico was called to see a young lady, who had been ill for a few days. Upon examination, the doctor advised: "What you need, my dear young lady, is a little sun and air," whereupon she burst out indignantly: "Why, doctor, how dare you? Why, I'm not even married!"

BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor
Serve the church that the church may serve you.

Services, Sunday, May 11th, the pastor in charge.

IT'S BETTER BECAUSE IT'S CANADIAN

JUST AS GOOD!

ASK YOURSELF,
IS IT?

When you ask for a certain line of goods, a line which you have seen advertised in newspapers—and you are told "Here is something just as good and cheaper," it is time to do some thinking. If there is more profit in selling goods not advertised, and you are buying at a saving, there must be something wrong somewhere—and usually that is loss of quality—something left out that is THERE in the advertised commodity you originally asked for.

It is well to remember that a manufacturer invests his good dollars in advertising space because he knows his product is right. The fact that he advertises in newspapers so that "he who runs may read" is evidence that he knows his claims are right, and that he is ready to stand behind his merchandise and the stores that sell it.

ASK FOR AND GET NATIONALLY ADVERTISED GOODS

CALGARIAN FILLED
NEAR BROCKET

F. J. Burbank, claims adjuster for Lily, Brewster, Cross & Marshall, of Calgary, was killed instantly on the road west of Brocket at an early hour on Friday morning last, when the car he was driving suddenly swerved in the gravel and overturned, pinning him beneath it. Herbert Wright, travelling with him, sustained a dislocated shoulder.

The body of Burbank was taken to Calgary for burial.

Burbank and Wright were enroute from Calgary to Blairmore.

R. J. Dinning, Alberta's liquor commissioner, states that his department has under consideration a policy whereby the open hours be curtailed each day. Data is being secured concerning the British system, where special hours are fixed in some mining areas. The Alberta Prohibition Association is considering a request for a plebiscite for the abolition of the beer parlors in the province.

From an address recently delivered by a former co-worker of ours in Newfoundland, we gather the following statistics regarding fish: The common herring lays from 20,000 to 50,000 eggs; the lump fish about 155,000; the halibut about 3,500,000; the codfish about 3,000,000 to 9,000,000; the turbot about 14,000,000; the ling about 150,000,000. Three healthy ling would lay more eggs than there are people in the British empire.

Three songs which will thrill audiences of Ziegfeld's "Glorifying the American Girl," when the picture comes to the Orpheum theatre for a 3-day run on Monday, Tuesday and Wednesday next are—"There Must Be Someone Waiting for Me," sung by Mary Eaton; "What Wouldn't I Do for That Man," sung by Helen Morgan in one of the revue scenes, and "Vagabond Lover" sung by Rudy Valle, the youth with the "It" voice in another scene of the special revue sequences of the picture.

Local and General Items

Mrs. Joseph O'Neill received word last week end from Ontario, announcing the death of her mother.

A dance, under the auspices of the Michel-Natal Baseball Club, will be held in the Kesteven hall at Natal on Monday night next.

We have seen seagull ladies at sea praying that a certain billow would be the last one, who would now crave for a permanent wave.

Famous last words: The Blairmore senior hockey team, Alberta provincial champions, are going to tour Europe.

Kimberley is to have a covered rink next winter and in a few days a campaign around \$5,000 was raised towards the building fund.

An exchange remarks: "The authorities are receiving complaints galore about Bad Minton. Can't something be done about him?"

A communication, believed to have come from Coleman, was consigned quickly to the wastepaper basket because it did not bear the writer's signature.

Misses Jean Greig and Mabel Thompson and Messrs Roland Pinkney and Robert Thompson, who have been attending University at Edmonton, arrived home last week.

Lady Helen E. Squires, wife of the premier of Newfoundland, has announced her candidature for the bye-election to be held in the Lewisporte riding as a government candidate. She is the first lady candidate for election in Newfoundland. The vote is to be taken on Saturday May 17th.

Tentative wage and working agreements between the Mine Workers' Union of Canada and the coal operators of the Nordegg district, in which approximately three hundred men are affected, were ratified by the men on Friday last. Canmore miners have also signed a new agreement.

Local and General Items

Cranbrook Gyro Club has raised \$4000 towards a municipal swimming pool.

Miss G. Webster, of the Michel teaching staff, was a week end guest with Miss Chardon here.

We regret to learn of the illness of Mr. A. Fabro, senior, who is a patient in hospital at Cranbrook.

When the meek do get to inherit the earth, it appears as though their great problem would still be the reckless truck driver.

Henry Ford tells of the great business expansion and wealth of the United States, brought about through prohibition—but he says nothing of the many bootleggers in our neighboring country who have become millionaires through the same fad.

An effort is being made to have the nonresident fishing permit fees in Alberta and British Columbia made reciprocal. At present, an Albertan has to pay one dollar a day or \$10 a year to fish in British Columbia, while a B.C. resident can fish in Alberta for the nominal sum of five dollars a season.

Joseph Holmes, fishery warden, was up from Pincher on Sunday. Mr. Holmes spent the winter in the northern part of the province and but recently returned to resume his duties in this district. Since returning, he has hailed several parties before court for breach of fishery regulations. Two parties, south of Pincher paid fines of \$10 each and costs.

Two Welshmen visiting London for the first time came across an office in one of the main streets. Thinking it was a shop, one of them opened the door and called in, "What do you sell here?"

One of the clerks, thinking to have a joke at the Welshman's expense, answered, "Monkeys!"

"Well," returned the Welshman, "you must have been doing a roaring trade if there's only two of you left."

THE PASS FIFTEEN YEARS AGO (The Blairmore Enterprise, 1914)

July 10.—On Wednesday afternoon we had a visit from J. Miya Gawa, a Japanese newspaper man, who is crossing the Dominion on foot from Vancouver to Toronto in the interest of a publication to be issued by him in the Dominion.

The new officers of the I.O.O.F. at Coleman were installed this week as follows: W. G. Rogers, P.G.; W. Andrews, N.G.; S. Slingsby, V.G.; W. S. Machin, R.S.; W. J. Burns, F.S.; Dave Reid, Treasurer. The officers of Blairmore Lodge for the new term are: L. C. Gales, P.G.; A. Morency, N.G.; H. G. Bigelow, V.G.; W. Roberts, R.S.; J. F. Hunter, F.S.; H. E. Lyon, Treasurer.

A Hillcrest, Alberta, despatch, says the B.C. Federation of states that the Hillcrest Collieries Limited will have to pay \$1800 to the family of each of the 181 miners who were killed in the recent explosion, a total of \$325,800.

Through a tag-day at Lethbridge, the sum of \$1000 was raised for the Hillcrest relief fund.

Joseph Chamberlain, one of the best known of England's public men, died last night.

George Skelding has completed the moving of the Union hotel at Frank.

The marriage took place at Grace Presbyterian church mame, Calgary, on Friday last, of William Gordon Fraser, of Frank, to Miss Jessie Duncan, of Passburg.

John Krafchenko, who murdered a bank manager at Plum Coulee some months ago, paid the death penalty yesterday.

July 17.—A relief fund for Hillcrest is being raised in Blairmore.

R. M. and Mrs. Brisco, and J. R. and Mrs. Smith, spent a day fishing at Todd Creek during the week.

bringing home full baskets.

On Wednesday afternoon of this week, the corner stone of the new Reid sanatorium for consumptives, at St. John's, Newfoundland, was laid by the Duke of Connaught, governor-general of Canada.

Archbishop Spratt told the women of the congregation of St. Mary's cathedral at Kingston, Ontario, that he would prefer that all those who were low-necked dresses should not present themselves for communion, as he considered it most disrespectful for them to approach the altar in garments that exposed their beyond the limit of decency.

A daughter was born to Mr. and Mrs. M. Windor, of the Union bank, on Wednesday of this week.

July 24.—Rev. Frederick Thomas Cook, pastor of the Bellevue Methodist church, was married at Edmonton during the week to Miss Gertrude Allen, daughter of Mr. and Mrs. T. Allen, of Edmonton.

J. E. Gillis and S. G. Lake, who were fishing at the South Fork river on Saturday, returned with a fine purchase.

KLANSMEN AND MASKS

With the arrival of Ontario newspapers, some interesting details of the sentencing of William A. Phillips to three months in jail are gleaned. Phillips, it will be remembered, was a member of the Ku Klux Klan which staged a demonstration at Oakville against an Indian who was living with a white girl. Phillips was fined \$50 for participation in the affair. He appealed, but so did the attorney general of the province, the latter on the ground that the punishment was too lenient. Their Lordships of the first divisional court upheld the attorney general and sentenced Phillips to three months in jail in addition to the fine already imposed. In giving their

decision, their Lordships are quoted as saying:

The greatest calamity that can befall a country is the overthrow of the law. Without it there is no security for life or property. It is the duty of the court to protect the authority of the law and, regarding as we do the offence in question as a grave one, we are of the opinion that the monetary fine imposed by the magistrate was a wholly inadequate punishment, a travesty of justice, and we substitute therefor imprisonment for the term of three months.

This being the first case of this nature that has come before the court, we have dealt with the offence with great leniency and the sentence here imposed is not to be regarded as a precedent in the event of a repetition of such offence.

There must be general agreement with this view. So long as the Ku Klux Klan in Canada confines itself to preaching its own particular gospel and does not follow the fashion of the organization in the United States of taking the law into its own hands, there will be little objection to it, even though its members wear hoods and bedcheets, although there is a natural feeling that any one who masks his face cannot be abroad for any good purpose. In this connection it is interesting to learn that Rev. George Marshall, Imperial Wizard of the Klan in Canada, said in an interview in Belleville: "For some time I have thought of recommending that the use of the mask be discontinued, but in view of this bitterness that seems to be creeping in, I think it would be advisable to retain the mask for the Klansmen's protection."

No man needs such protection if his purposes be lawful, and the very fact that the Klansmen abandoned the mask would convince most people they were not ashamed to be known. This in turn would engender a feeling of confidence that the Klan-Canadian version—was a reputable or-

ganization.—Edmonton Journal.

WOMEN WON'T EAT

Again the disasters of life have been traced to women. It seems that the hard times which are afflicting the American farmers, are due to the fact that women have taken to dieting, and refuse to eat those good old fashioned hearty meals so pleasing to the producer.

This is Adam all over again, only in reverse. Adam cried because the woman gave him to eat; Adam's son is in a bad way because the woman herself will not eat, and probably refuses to feed him.

Things have come to a pretty pass indeed, when the American man is driven to blaming women for his troubles. Never before in all history has he lifted his voice except in praise of the "little woman, to whom I owe my success." However, when he isn't having any success, it is probably fair enough that he should lay that to the little woman too.

The only solution that we can see to this dieting problem, which is undermining the farm industry, is to have all men banded together under the slogan: "I'd rather have you fat." Perhaps the governments may take steps along this line, in order to rescue agriculture.—Ex.

We have received a copy of the Humane Pleader, a magazine published in Toronto in the interest of humane education. The Toronto Humane Society is endeavoring to extend its educational work into every part of the country and the magazine is well worth procuring. The subscription price is \$1.00 per year. It is the official organ of the Ontario Society for the Prevention of Cruelty to Animals.

The new Wainwright hotel, costing upwards of \$100,000, was recently opened.

In the St. Mary's school results, Calgary, we notice that Helen Dutil of Blairmore, in Grade XII, with eight units, attained fourth place with 56 marks. Francis Tompkins, also of Blairmore, in Grade XII, with seven units, attained first place with 72 marks.

The fellow who fancies himself "the whole cheese" is at least a piece of it.

Rev. Dr. John McCartney Wilson, formerly of Alberta, was recently inducted as pastor of West Church, Ayrton, England.

HIGHLIGHTS IN CANADA'S BALANCE SHEET

Total ordinary revenue for the fiscal year 1929-30 was \$440,206,000, of which the revenue from taxation was \$378,321,000. Special receipts and credits brought the grand total revenue up to \$447,322,000.

Total ordinary expenditure for the fiscal year was \$360,050,000. Added to this were special expenditures (such as reparations), capital expenditures (such as public works), loans and non-active advances, making the total expenditures \$402,815,000.

Surplus of revenue over expenditures, \$44,507,000.

Unmatured funded debt stands at \$2,250,837,336.

Reduction of debt in past five years out of surplus revenue totalled \$257,800,000.

Canada's total exports during the last fiscal year were \$1,144,900,000, and imports \$1,248,200,000, leaving an adverse balance of visible trade of \$103,300,000.

The decrease in exports as compared with the year before was \$244,000,000.

The combined net cash deficit of the Canadian National Railways for the year 1928 and 1929 including interest charges, has been paid by the government and amounted to \$2,932,632.

The government also paid to meet the financial requirements of the Canadian Government Merchant Marine, Limited, \$1,628,907, the Canadian National (West Indies) Steamships, Limited, \$862,359, and Eastern lines, Canadian National Railways, \$4,526,645.

Loans to Harbor Commission in 1929-30 totalled \$10,436,000.

WEED CONTROL PROGRAMME

The Alberta Department of Agriculture has now completed its plans for the weed control programme of 1930.

Under the Field Crops Branch the Province has been divided into fifteen districts. In each of these districts a Field Supervisor will be stationed. His duties will be to co-operate with Weed Inspectors appointed by Municipal Councils, and in Local Improvement Districts, in general weed control work and the enforcement of The Noxious Weed Act.

Farmers of the Province are urged to avail themselves of the services of these men. Their office centres are being advertised in this issue.

INSTITUTE PUBLIC LIBRARY

We are pleased to acknowledge 12 books from Mrs. Seneier. The books now classified and available for use number 2106. Extensive alterations are being made to stationary arrangements, making it easier for the public to make their selections.

The Library is open to all citizens of Blairmore on payment of annual membership fee of \$1.00. Library hours Tuesday and Saturday from 7 to 9 p.m.

J. W. Glenwright, well known legislator of Edmonton, and very well known in The Pass district, has been mentioned as a possible Liberal candidate for one of the city seats.

BEFORE YOU MAKE A PURCHASE COMPARE THE LOCAL PRODUCT

Apart from the many excellent reasons why you should give preference in your buying to "MADE - IN - ALBERTA" PRODUCTS, you will find on examination and comparison that they appeal to you by merit alone and that the range of ALBERTA-MADE GOODS is far greater than many citizens realize.

Keep the Wheels Turning in Alberta's Factories

Over \$82,000,000 is already invested in Alberta industries. Your failure to support these industries in your buying will result in unemployment, substantially reduce the wages of Albertans and indirectly affect your own earning power. Your support will insure better business, busier factories, more work and larger payrolls.

TEST your Whisky This Way

POUR OUT a portion of "WHITE HORSE" and add an equal portion of water. Roll it around in your glass. First test it by the nose, and its delightful and pleasing aroma will at once be apparent to you, an aroma which almost baffles description. Then test your "WHITE HORSE" by slowly sipping it. Do not swallow at first—allow your palate to detect and appreciate its distinctive and delicious flavour. No other whisky can offer you such mellowness and smoothness or create such a deep sense of satisfaction and enjoyment.

"WHITE HORSE" Scotch Whisky is distilled and bottled in Scotland and sold throughout the world.

Local and General Items

July 28th is mentioned as likely date for the federal election.

Sunday next will be observed throughout Canada as Mothers' Day.

Mr. and Mrs. W. Bird and daughter, are in town from Regina on a brief holiday.

The Alberta convention of Elks will take place at Edmonton on May 19th.

Some local folks claim they are satisfied to live under the British flag. Yes, and those who think more of another flag should go to the land of that flag—and stay there!

B. A. Kiernan, for a number of years foreman with the Eagle Lake Spruce mills in B.C., is now logging superintendent with the Millar Timber Company at Millik, Cobato, Philippine Islands. In writing to The Enterprise, he wished to be remembered to all old friends in Blairmore.

Speaking of the climate, he says they have the finest climate in the world, "he days never getting warmer than 90 to 95 degrees, and as soon as the sun is down it drops to about 67.

Rev. Dr. Thomas Powell, superintendent of missions for the United Church in Alberta, was a visitor to The Pass on Sunday last, occupying the pulpit at St. Paul's church, Coleman, in the morning; at the Hillcrest church in the afternoon, and the Bellevue church at night. Having received an urgent call to return to Calgary, he could not stay over to meet the Blairmore board on the Monday, as arranged. Dr. Powell returned to Calgary by Sunday night's train, and promised to return to Blairmore some time in June.

Robert A. Parker, past grand master and field secretary for the Alberta Grand Lodge of the I.O.O.F., was a visitor to Pass lodges this week.

The next regular meeting of Crow's Nest Chapter, I.O.D.E., will be held at the home of Mrs. Jack Patterson on Monday night next at 7.30. A full attendance is requested.

The many district friends of Miss Erna Boquist, of Bellevue, will regret to learn that she is lying in a semi-conscious condition following a fall at the home of her sister on Thursday last.

Ottawa government officials, of the radio department, visited Macled last week and located a transmitting station a few miles south of that town, where an operator will be placed and a beacon light will be erected for the guidance of air-mail planes on the Crow's Nest route. Erection will be made early in the season.

His Grace Archbishop Samuel P. Matheson has announced his intention of retiring both from the primacy of the Church of England in Canada and as archbishop of the diocese of Rupert's Land. The resignation is to become effective on September 20th, when he will be seventy-nine years old. He has been in the ministry fifty-five years.

An interesting article from the pen of Mrs. Margaret Somerville McDonald, wife of the Alberta Liberal leader, on the subject of "Woman, the Home and the Children—The Value of the Folk Festival," appears in the April 30th issue of The New Outlook, official organ of the United Church in Canada.

A farewell party for Mrs. John Lipnicka and daughters, Misses Anna and Mary, who are leaving on Saturday for a four-months tour of Europe, was given on Wednesday evening, May the 7th, under the auspices of the C.W.L. of Hillcrest, in St. Theresa's parish hall. A large number of the younger set of Hillcrest, along with the C.W.L. and their friends, assembled early in the evening, during which time cards were played, prizes distributed, a dainty luncheon served, after which, the Whoopee King's orchestra being in attendance, the folks made whoopee for the rest of the session. Best wishes were expressed to Mrs. Lipnicka and daughters for a very happy voyage to the storied lands of the old world. Much praise is due Mrs. F. McDougall and Mrs. P. McNeill, of the C.W.L., for their success in organizing the function.

COWLEY HAPPENINGS

Mr. and Mrs. Robert Littleton are spending a few days visiting friends in Lethbridge.

Mrs. Sid McCabe and son have returned to their home in Sirdar, B.C., after paying a few days visit with H. G. Morrison and family.

Mrs. Lionel Peel and two children, who have been visiting here a couple of months, returned to their home in Corbin on Friday.

Wednesday afternoon was observed as clean-up day for the village, when all junk was disposed of and the litter raked in piles and burned. You can come to our town now.

Bear in mind the Cowley sports on May 24th. The prayers of all and sundry have already gone forth for a fine day and a big one.

Meets Second and Fourth Tuesdays at 8 p.m. in the Moose Hall. Visitors made welcome. C. J. Tomkins, Exalted Ruler; J. R. McLeod, Secretary.

ALBERTA BOYS' WORK BOARD

The Alberta Boys' Work Board are already making preparations for their 1930 camping programme. It is confidently expected that there will be in the neighborhood of fifteen district boys' camps in as many localities throughout the province. These camps present an opportunity for purposeful character building activities for Trail Ranger and Tuxis Boys as well as those boys who come from Sunday School Classes from the various denominations. Camp Tuxis, the provincial leadership training camp for older boys of 16 years of age or more, will be held from July 7-16 at Kasota Beach, Sylvan Lake. The leadership will be the best available. Plans for this camp are rapidly taking shape. Nine days in the out-of-doors at one of Alberta's beauty spots with all the varied activities of a broad camping programme are assured for those who

share in the fine fellowship of this camp.

Well-directed camps are being recognized as vital mediums in the educational process today. Conduct and ideals as well as information are found in the education gained through camping. It is hoped that in the near future all teen-age boys will be able to spend part of each summer in a well-directed, well-equipped boys' camp.

THE ALBERTA DEVELOPMENT BOARD

For three consecutive years the Alberta Development Board, southern section, has been conducting a campaign advocating the purchase of Alberta Made products. Not only has this particular campaign been undertaken, but each year the Board advertises in a number of agricultural newspapers of the United States pointing out the exceptional scenery of southern Alberta and the Rockies, stressing the advantages of land settlement in Alberta and also through the Dominion of Canada, bringing to the front the necessity and need of industrial development. Its efforts have been successful. New industries have been directly traced, new industries have been established, and as for the number of tourists the increase has been definitely proved to be a result of the Board's advertising appeal.

It was interesting to note that at the annual meeting of the Alberta branch of the Canadian Manufacturers' Association held in Edmonton last month the convention impressed on the public mind the increasingly important position attained by manufacturing in the Province. The membership in six years has grown from 90 to 240. The manufacturing output has been conservatively estimated at slightly above \$100,000,000 in 1929.

This total indicates the importance of the manufacturing industry of Alberta. Over \$82,000,000 has been invested in manufacturing enterprises in this province. They are paying about \$14,000,000 a year in salaries and wages to over 11,000 employees.

It is becoming more apparent all the time that the continued prosperity of Alberta depends on diversified development. The era of dependence on grain alone to produce revenue for the support of a growing population is fast passing away. It is too precarious. Agricultural activities will have to expand in other direction than wheat growing. Mixed farming livestock production, dairying, these will assist in ensuring a more certain income for the farm, but side by side with these is important as well as the development of Alberta's great natural resources such as coal, gas and water power.

The citizens of Alberta should realize that not by grain alone can we live but by the varied interests, agricultural and industrial, can Alberta pre-empt a place in the Sun. If the citizens support the purchase of Alberta Made Goods our prosperity will be more quickly assured.

SPECTACULAR FILM

COMES HERE SOON

The most pretentious parade of pulchritude ever produced for the edification of picture patrons will be seen and heard at the Orpheum theatre, next Monday, Tuesday and Wednesday, when Florenz Ziegfeld's "Glorifying the American Girl" comes there.

With most of its spectacle photographed by the improved Technicolor Process, this film is one of the biggest eye and ear entertainments to be projected on the screen since talking pictures became one of the staples of life.

Ziegfeld himself personally supervised the production. Mary Eaton, star of many a Ziegfeld stage show on Broadway, is the leading lady. The story shows how she, as a tank town nobody, gains success on the New York stage after many trials and heart-breaks. There is romance, comedy and excitement in this moving tale of the great white way; Dan

Healy, himself a famous Broadway dancer, Kaye Renard, song and dance girl of great renown, and Olive Shea, recently selected as Miss Radio of 1929 in the big New York Radio show, are cast in support of Miss Eaton.

In a special revue sequence of the picture three of the stage and screen's leading performers are seen in individual performances. They are Eddie Cantor, now starring in "Whoopee" in New York; Helen Morgan of "Show Boat" fame—and Audy Vallee, the soft-voiced crooner of radio, record and talking screen fame.

The West Helps the East

The reduced volume of wheat production in Western Canada last year, coupled with the serious tie-up in grain shipments owing to the absence of a profitable export market, has at least had the effect of opening the eyes of Eastern Canada to certain facts which formerly they did not realize, or at all events were loath to admit did exist.

For a long period of years, even in fairly recent years, the opinion was voiced throughout the eastern portion of the Dominion that the West imposed quite a drain on the East, that the East was taxed to provide immigration, transportation, and other services for the West, and for which the East received no adequate return.

Now, apparently, this view is no longer held, for we find such an outstanding Ontario paper as "Toronto Saturday Night," which more or less reflects the financial viewpoint of the city in which it is published, featuring an article which opens with the following paragraph:

"Behind the dark curtain of wheat—the emphasis which has been placed on failure of the last crop to move—the controversy over marketing methods with the resultant propaganda—is to be found the true economic status of the Canadian west. A clear and unbiased examination of the facts—the facts alone dissociated from the passions aroused by factional contention—is vital to east and west alike. Upon such knowledge only can the confidence of the manufacturer in his commitments for the summer and fall months of the year be founded. There is no disputing the fact that the balance between prosperity and a curtailed volume of trade rests upon the West's purchasing power."

The admission, or recognition, contained in that last sentence is certainly refreshing and welcome to the people of Western Canada. Its recognition by the East must undoubtedly mean the rapid development of a better understanding between the vast sections of the Dominion which lie to the east and west respectively of the Great Lakes. And such better understanding is vital to the welfare of Canada.

The second fact which the experiences of the past twelve months have brought forcibly to the attention of the whole country is that the volume of freight traffic provided for our two great transportation systems by the grain shipments of the prairie provinces is an important, yes, a vital factor, in maintaining their net profits at a satisfactorily high figure. Not so long ago, the railway managements contended that rates for western grain carriage fixed by the Railway Commission were so low that there was no margin of profit in them. In this class of business, that, in fact, there was a loss taken in the movement of western grain, which loss had to be made up out of other earnings. This, therefore, also constituted something of a grievance in the eyes of eastern shippers.

Now, however, both railways have frankly attributed the drop in their profits, in not merely the gross but the net profits, to the heavy decline in grain shipments. In other words, they have admitted the probable nature of the western grain business from a railway transportation standpoint.

These things are deeply significant. It is well known that freight rates on grain in Western Canada are much lower than they are on railways in western grain areas of the United States, and to that extent the Western Canadian farmer has an advantage over his United States competitor in world markets. It is, however, gratifying to know that such advantage is not gained by imposing actual loss upon the transportation companies of this Dominion.

To the West, too, it is gratifying to know that it is a vital factor in promoting the prosperity of the manufacturing industries of the East. That is as it should be. The West desires to help Canada forward. It is anxious that the settlement of its broad acres and the fertility of its soil should result in big and profitable business for the East. The West prefers Canadian-made goods above all others, and it is a source of real gratification to our people to realize that we have in our power to confer the benefits of increased business and prosperity upon our fellow Canadian citizens east of the Great Lakes.

Out of the troublous times and somewhat bitter experiences of the last season there has come the happy realization, both east and west, of our dependence on each other; of our common interest in the welfare of each other; in our joint pride and concern in the progress and prosperity of our common country.

Establish Reference Monuments

During the summer of 1929, the Geodetic Survey of Canada, Department of the Interior, established fundamental reference monuments in fourteen towns and cities of Saskatchewan and Manitoba. The sites, usually in improved city parks, were granted by the municipalities. Each pier bears a bronze plate on which is inscribed the elevation, latitude, and longitude of the monument as established by the Geodetic Survey.

The average life of a derelict ship is 30 days, according to shipping authorities.

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour. Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Canada's Scholars

Latest government figures—those of 1928—show nearly two and a half million scholars in Canadian educational institutions, or 2,342,391 in exact figures, of whom 2,045,292 attended publicly controlled kindergarten, elementary and secondary schools. The attendance at the 23 universities in Canada was 56,042 of whom 29,900 were women.

Not so many years ago, farmers regarded sweet clover as a persistent weed; now they cultivate it for hay and pasture and to improve the soil.

Reduce the Acid

Take a spoonful in water and your unhappy condition will probably end. You will always know what to do. Crude and harmful methods will never appeal to you. Go give this for your own sake. It may save a great many disagreeable hours. Be sure to get the genuine Phillips' Milk of Magnesia, as recommended by physicians for 50 years in correcting excess acidity. Each bottle contains full directions—any druggist.

Average Lifetime In India Very Short

Record For New Zealand Is Highest In World

The country which leads the world in the average lifetime of its people is not in either Europe or America, but in New Zealand, where at the beginning of the decade, a male child at birth could look forward to 63 years of life and a female to over 65 years, according to the statistics offered by Louis I. Dublin, in his article "Can We Extend the Life Span?" in the May number of Harper's Magazine.

In Australia the expectation of life is two or three years less, but is, nevertheless, higher than that of any country in either America or Europe. At the other end of the scale stands India, where the expectation of life reaches the amazingly low figure of 22 years for males and 23 years for females, a figure about equal to that of the people of Rome under the Empire.

In the United States the expectation of life is about 50 years, being a little less than that figure for males and a little more for females. There has been an extension of 8 years' life between the years 1900 and 1927. In Europe Denmark has the best standing as shown by the fact that its men may expect to live a little over 60 years and its women about 62 years.

RHEUMATIC VICTIM FOR SIXTEEN YEARS

Dr. Williams' Pink Pills Restored Her Health

Rheumatism is a disorder of the blood. Wet, cold weather may aggravate it, but that is not the cause. Bad blood charged with uric acid is the reason. Re-build the blood and rheumatism will disappear. Dr. Williams' Pink Pills enrich and purify the blood and that makes good health.

John McPherson, St. Mary's, Ont., writes:—"For sixteen years I was a victim of rheumatism. For eleven years I was unable to walk. Massage and chiropractic treatment failed. I was utterly discouraged until I heard how strongly Dr. Williams' Pink Pills were recommended for cases like mine. I began their use in a few weeks the pain lessened, my appetite and color improved, and now I am able to do light housework. It is wonderful what these pills have done for me."

Dr. Williams' Pink Pills do one thing, but they do it well—they enrich and purify the blood. This rich blood banishes rheumatism, sciatica, neuralgia, neuritis and promotes health and strength. The Pills are sold by medicine dealers or by mail. Write for a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Fingerprints are Radioed

Photographs. Also. Exchanged. Between Berlin and Buenos Aires

The police of Berlin and Buenos Aires successfully exchanged photographs and fingerprints by radio.

The prints of a criminal's ten fingers were sent in eight minutes and were received with a clearness which readily permits indexing and identification.

The radio transmission of photographs, however, has not yet been so successful, but pen and ink drawings from photographs can be transmitted perfectly. Berlin radioed to Buenos Aires a sketch of its chief of police, and Buenos Aires sent a sketch of its chief of police to Berlin. Both were reproduced excellently.

Persian Balm tones and stimulates the skin. Fragrant as a flower. Cool as morning dew. Safeguard and beautifies the most delicately-textured skin. Creates complexions of exquisite charm. Adds a subtle finish to the daintiest woman. Invaluable for softening the hands and making them flawlessly white. Cool and refreshing. Daintily fragrant. Delightful to use. Chosen unhesitatingly by all women who care for feminine distinction.

Fair Booklet Issued

Under the title "Hints for Exhibitors," the provincial department of agriculture has issued a booklet that deals with exhibits and the preparation of exhibits for the World's Grain Exhibition and Conference that will be held in Regina July 25 to August 6, 1932. Copies may be secured by applying to the department. Hon. W. C. Hughes, Minister of Agriculture, is chairman of the executive Saskatchewan committee.

Heal the Sprain with Minard's.

Two thousand Austrians thought several thousand miles removed from America are kept dry by a prohibition law with teeth in it. They are persons who have committed actual crimes while under the influence of alcohol and who have received sentences which become effective when and if they take another drink.

W. N. U. 1536

Children's Croupy Colds Quickly Relieved

Take a saucer or pitcher of water; place it on a spirit stove or lamp. Add a few drops of Catarrhazone to a pint of water which is brought to a boil. Let the steam from the kettle fill the room so that medicated air is breathed in by the child. The distressing cough is relieved. The inflammation is reduced. Good results are quickly noticeable from using Catarrhazone in this manner. Even for small infants this treatment is ideal. Every good druggist sells Catarrhazone in 60c bottles.

Production and the Market

Dairy Products and Livestock Could Be Increased To Canada's Advantage

While Canada has been increasing her wheat acreage at the rate of a million acres a year every other major line of agricultural production has been standing still or sliding down hill. While the wheat crop goes begging the British market is calling in vain for more Canadian Wheatbines, more Canadian sheaves, more Canadian condensed milk and more Canadian poultry products. The simple fact is that agriculture in this country has grown all out of balance.

This is the argument of R. D. Colquhoun, in an article in The Country Guide, Winnipeg, and there is plenty of evidence to support his contention.

What has happened is that Canada's agricultural production has gotten completely out of balance. We have a national deficit of two such important products as butter and lamb. Our Wheatbire exports are at the vanishing point. It would be no surprise to some who see this situation as it is to find Canadian bacon beside New Zealand lamb on the meat counters of our cities if a change is not made. Of cheese, condensed milk and other products we are selling less abroad every year. This kind of thing can not go on forever, says Mr. Colquhoun. Production has to be shaped to fit the market. We have got to balance up. Otherwise the current at the bottom of the column will be written in red ink.

These considerations, however, must not blind the observer to the fact that while growing is the chief business of large areas in the West, because these areas are adapted to cereal production and would fail as mixed farming areas.

Plan Daring Venture

Group of Japanese Business Men Sponsoring Air Line Across Pacific

A project of inaugurating a regular passenger and air line between Japan and the United States and Canada to shorten the distance between the continents to three days is reported to have been organized by a group of Japanese business men and financed at a capitalization of \$75,000,000. Four huge airplanes, resembling the Graf Zeppelin, which entered the globe last year, are expected to be employed for the regular air trips.

The Japanese government has been officially asked for the necessary permits and those behind the enterprise say they propose to go right ahead with their preparations.

Seki Hoshino, noted Tokyo business man and one of the promoters, says the plan was projected last year shortly after the visit of the German dirigible. The single fare for a passenger, he said, would be \$15,000.

"It may take us a year or two to complete organization," said Mr. Hoshino. "International agreements will have to be negotiated. But we are absolutely serious in this undertaking. It is a daring venture, but we believe that it is feasible and we are prepared to go right ahead with it."

Miller's Worm Powders can do no injury to the most delicate child. Any child, or infant in the state of adolescence, who is infested with worms can take this preparation without a quail of the stomach, and will find in it a sure relief and full protection from these destructive pests, which are responsible for much sickness and great suffering to legions of little ones.

An Odd Ornament

A human jaw bone carved with hieroglyphs and made into a pendant is an odd piece of jewelry worn by one of the prehistoric Mayas and found recently by a British archaeological expedition to British Honduras.

One advantage the Senators will enjoy now is that for whatever happens they will have a woman to blame it on.

Used-car auction sales are being held in Africa.

Campers Carry Minard's.

Lives Have Been Shortened

Men Who Saw Actual War Service Are Dying Comparatively Young

Hon. Dr. Manion, speaking before the parliamentary committee on pensions and returned soldiers problems the other day, made a statement which is highly significant. He said that of those men who served in an actual theatre of war between 1914 and 1918, very few will live to reach the age of sixty-five. Being both a physician and a war veteran, Dr. Manion has some intimate knowledge of the conditions under which men lived during those war years, and of the effect which these conditions had on mind and body. And his considered opinion is that few of them will come within five years of reaching the allotted span of three score and ten years of life.

This statement is further amplified by the figures quoted by Major Wright of the pensions department. His figures showed that 348,904 Canadians reached an actual theatre of war. Of these, some 60,000 were killed in active service. Of those who did return to Canada, however, 29,376 are known to have died since the war. There may be many more who have died and of whose deaths there has been no record, but the records available show almost 30,000 deaths in the first ten years after the close of hostilities.

This is a condition worth pondering over. The war veterans of Canada are dying off at a great rate and it is only logical to expect that the rate of mortality will increase rather than decrease during the next decade and the one to follow. Indeed, Major Wright's figures rather support the assertion of Dr. Manion that few of the veterans who served in an actual theatre of war will reach the age of sixty-five.

This is not a very cheerful outlook over. The war veterans of Canada are dying off at a great rate and it is recognized that war conditions were such as to prematurely age many men, and to rob them of the strength and vitality that would carry them on to the natural span of life. Their lives have been shortened by their service to their country. Their earning powers have been curtailed because they are growing old in body and mind although not in years. There is a difficult situation, and one in which they merit all the sympathetic consideration that can be given them by a grateful people.—Oshawa Times.

Douglas' Egyptian Liniment is unrivalled for speedy relief in muscular rheumatism, lumbago, inflammation, burns and felons.

Prizes For Registered Grain

To encourage the growing of registered grain, the Melfort, Sask., Kiwanis Club is to supply 25 teen age boys with two bushels of registered seed each, or enough to sow an acre of land. A cup and other prizes will be presented in the fall for the best grain.

The United States will show the best features of its "billion dollar poultry industry" in an exhibit to be sent to the World Poultry Congress in London this summer.

WRIGLEYS

WRIGLEY'S is good company on any trip.

It's delicious flavor adds zest and enjoyment. The sugar supplies pep and energy when the day seems long.

In short it's good and good for you.

No Moths In Arctic

Woolen Mittens Seventy-Eight Years

Clothes moths are unknown in the Arctic. Let a pair of white woolen mitts, hanging in the office of O. S. Finnie, at Ottawa, testify. Mr. Finnie is director of the North West Territories and Yukon Department of the Interior.

They were knitted—these mittens—in England, 80 or 90 years ago. A bundle of them was purchased by the outfitters of Captain Sir Leopold McClintock, commander of one of the ships that went north, in search of Sir John Franklin.

They were fastened up in a cask and cached on Dealy Island, in 1852, exactly 78 years ago.

Last spring, Inspector Joy came upon the mittens, and he used them. They are back in civilisation, and look like new.

Frazer's This Asthma Remedy, a grateful user of Dr. J. D. Kellogg's Asthma Remedy finds it the only remedy that will give relief, though for thirteen years he had sought other help. Years of needless suffering may be prevented by using this wonderful remedy at the first warning of trouble. Its use is simple, its cost is slight, and it can be purchased almost anywhere.

A Giant Tree

A giant spruce, more than 275 years old and measuring 125 feet in height, has just been cut down in Gasborn park in Vermont. At the root the ancient tree had a diameter of 44 inches. It was sawed into five sections, containing in all more than 118,43 cubic feet of solid wood and plenty of splints for making pulp.

Sick Animals

MANY CHANGES ANNOUNCED IN NEW BUDGET

Ottawa, Ont.—Hon. C. A. Dunning, in his first budget speech announced sales tax reduced from two to one per cent.

Downward revision of the tax brought in the last year on the sale and transfers of stock.

Duty on New Zealand butter increased one cent to four cents a pound.

Trade agreement now in operation with New Zealand will be terminated on October 12.

Trade agreement with Newfoundland to be announced soon.

Long list of tariff changes.

Increases in the general tariff on steel plate and structural steel, with duty lowered under British preference.

A countervailing duty to make Canadian tariff same as country of export on certain commodities, including certain vegetables, eggs and grain.

Ottawa.—An estimated surplus of \$44,000,000 for the fiscal year 1929-30 was announced by Hon. C. A. Dunning, Minister of Finance, in his budget speech.

Together with this announcement came the important statement that "serious and complex" changes in tariff rates are provided for.

Summarized briefly, the Minister told the House that the present budget tariff proposals involve, under the general tariff, increases in rates on 54 items and decreases on 46; under the intermediate tariff, increases in rates on 35 items and decreases on 98; and under the British preferential tariff, increases in rates on 11 items and decreases on 270. When the revision is completed, the Canadian customs tariff will consist of 1,188 items, of which 589 will be free under the British preference.

The changes proposed, the Minister stated, will have the effect of greatly increasing the British preference in the Canadian market.

The scene as Mr. Dunning made his statement to the House of Commons and the Dominion of Canada was tense with dramatic interest. On the floor of the House, nearly every seat was filled. Galleries were packed. For weeks the word had gone forth that this would be the most far-reaching budget in a decade. It was referred to as "election budget"—the announcement on which the government proposed to stake its political life. Long before the bells throughout the parliament buildings summoned members to their seats, impatient crowds gathered outside the public and private galleries of the Commons' chambers. Many women were there. They waited while the usual routine of prayers was gone through. Then the doors were thrown open and they flocked into the galleries.

Must Take Livestock Industry Seriously

Or Canadian Farmers Will Lose Business, Says Cattle Man

Winnipeg, Man.—Canadian farmers must look to their livestock producing as a serious industry or they will have it taken away from them, declared Col. H. A. Mullins, former member of Parliament for Marquette and one of the best-known cattle men in the Dominion here.

Just as big packing companies in the United States have undertaken to raise their own cattle, Canadian firms will be forced to do the same thing if farmers fail in this respect as they have done heretofore. In Montana, Col. Mullins said, abattoir companies are feeding 52,000 hogs and nearly 3,000 cattle.

Noted Barriester Dead

Ottawa, Ont.—Eugene Lafleur, K. C., one of Canada's most distinguished barristers, died here April 30, from pneumonia. Mr. Lafleur was prominently connected with most of the largest litigations which Canada has had in recent years. He was to have acted as the Dominion's representative on the board of arbitration which is to investigate the "Tin Alone" dispute with the United States.

Radio Stations To Fight Fires

Port Arthur, Ont.—To aid in forest fire battles, two radio stations will be operated from advantageous points in the Thunder Bay district this season. Communication will be established between observation towers and the chief ranger's headquarters.

Ramsay MacDonald Has Talk With Australia

Twelve Thousand Miles Bridged By Beam Wireless Service

London, England.—On April 30, in the cabinet room at No. 10 Downing Street the telephone rang promptly at 8.30 in the morning and Prime Minister Ramsay MacDonald, coming some papers in his usual chair at the head of the table, lifted the receiver and said: "Hullo, is that you, Scullin?"

Thus was inaugurated the first direct beam wireless telephone service between England and Australia. The Labor Premier of Britain conversed with the Labor Premier of Australia, James Scullin, over a distance of 12,000 miles, and the chat went on for 15 minutes. The two premiers discussed Empire problems. The forthcoming cricket test matches between England and Australia in England, and when they were likely to come together.

Though oceans and continents lay between them, each could hear the other distinctly. Others in the cabinet room had the benefit of hearing the conversation through earphones. The whole conversation was clear throughout. Premier Scullin's voice travelling through the air of the other side of the world, was only a trifle harder to the listeners here than was Premier MacDonald's.

"I hope the day is not very far off when we shall have the physical distance between us by air passage too," Premier MacDonald said.

Good Market In Orient For Apples

British Columbia Growers May Build Up Big Business

Victoria, B.C.—Plans for invading Oriental markets with British Columbia apples are being shaped by the provincial government through the marketing branch of the department of agriculture, following the receipt of advice from Hon. Herbert Marler, Canadian minister to Japan, pointing to the possibilities of this business.

A large market awaits the B.C. fruit in Japan and China, Mr. Marler said, and the department is anxious that the fruit industry take advantage of these opportunities. The impression made by experimental shipments from here to large markets like Hong Kong, has been excellent, Mr. Marler stated, and should enable Canadian growers to sell large quantities there in the future.

The department is also anxious to promote the shipment of canned B.C. fruit and vegetables to the Orient, and Mr. Marler believes that a large business in this line can be built up. The need of extensive advertising to compete with huge American exports is stressed. Officials of the department will confer with the fruit, vegetable and canning industries in an effort to take advantage of these possibilities in a big way.

Studying Canadian Railway Methods

Reorganization Of Their System Planned By Soviet Officials

Winnipeg, Man.—Six officials of the Soviet Republic arrived in Winnipeg to study the methods and the facilities of the Canadian National Railway with a view of producing a complete reorganization of railroad practice in Russia.

"Traffic has increased to such an extent in recent years that we find ourselves unable to cope with present needs and consequently we must reconstruct our whole railway system," said D. E. Sulmoff, Vice-President of the Soviet Republic, who is heading the committee in its investigations. "We are particularly interested in the heavier track, the stronger motive power and the yard facilities, none of which are found in any European country."

Manitoba Seeding Nearly Done

Winnipeg, Man.—Seeding of wheat is about 80 to 85 per cent finished in Manitoba and present prospects are favorable for early sowing of the spring grain crop, according to a summary issued recently by the Manitoba department of agriculture. A large number of farmers have all their wheat sown and are proceeding with the planting of their other crops.

Delegates From Canada

Montreal.—A thoroughly representative group of Canadian business men will leave for London, England, May 16, to attend the Federated Chambers of Commerce of the British Empire conference, starting May 26.

PRIME MINISTER PROPOSES NEW FISHERIES POST

Ottawa, Ont.—Prime Minister Mackenzie King has given notice of a motion providing a salary for a new Minister of Fisheries. Another motion standing in the name of the Prime Minister on the order paper declares that it is expedient that there shall be a new Department of Fisheries. The salary of the Minister of Fisheries is set at \$10,000, which is identical with that of the other Cabinet ministers.

The impression prevailing in political circles is that creation of the new portfolio will give Prime Minister King a new representation in the cabinet. Since 1926, that province has been without ministerial representation, but it is recalled that at the time of the formation of his last cabinet, four years ago, the Prime Minister intimated that a minister from Prince Edward Island would be added. It is stated, however, that the government is considering the question whether to give the province representation through the new department of fisheries or through another department by the shuffling of portfolios.

Hon. J. E. Sinclair and R. J. Jenkins, both Liberal members for the dual constituency of Queens, and A. E. MacLean, Liberal member for Prince Albert, are mentioned for Cabinet appointments.

Another name prominently associated with the appointment is that of Dr. Cyrus MacMillan, a professor at McGill University and formerly of Prince Edward Island. Dr. MacMillan was a member of the Atlantic Fisheries Commission.

Creation of a separate department of fisheries with a minister and a deputy presiding at its head was recommended by the Duncan Royal Commission, which investigated conditions in the Maritime Provinces back in 1925 and 1926. About a year ago, W. A. Found was appointed as Deputy Minister of Fisheries to carry on such duties under the Minister of Marine and Fisheries, Hon. J. A. Cardin. Under the proposed legislation, Mr. Cardin will devote his ministerial energies to marine.

Another legislative proposal referred to in the new department of fish oils, used for manufacturing purposes, tempering of steel and the like. This task is now being performed by the Department of Agriculture under the Inspection and Sale Act. It is contemplated also to increase from five to seven the number of appointments which may be made by the minister of fisheries to the Biological Board of Canada.

The purpose of the change is to give an additional representative to the fisheries industry of both British Columbia and the Maritime Provinces.

A Royal President

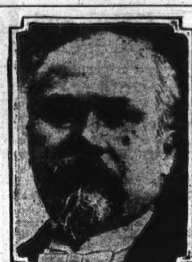

London, Eng.—The Prince of Wales has consented to become president of the Professional Golfers' Association, succeeding the late Earl of Balfour. The Prince always has taken a great interest in golfing and besides having held the royal and ancient patronage has been captain at various times of several metropolitan clubs.

AN INTERESTED SPECTATOR

This photograph shows Stanley Baldwin (left), former prime minister of Great Britain, smoking what looks like a "Dawson pipe," with the Cambridge coach, watching the Cambridge crew train at Putney, Eng., in preparation for the classic Thames boat race, which was won by the light-blue of Cambridge.

DEFENDS MARSHALL FOCH

Raymond Poincaré, former premier of France, has taken up the pen to defend Marshal Foch against the criticism of Clemenceau's "Grandeur and Misery of Victory."

Japan Chooses Vancouver

First Trade Commissioner Arrives To Open Office At Canadian Port

Vancouver, B.C.—Japan has appointed its first trade commissioner to Western Canada in the person of Masao Suma, who has arrived in Vancouver to open an office here from which he will seek to stimulate Japanese trade with Western Canada and the Northwestern States.

"There are busy ports in the American part of my territory," Mr. Suma said, "but the fact that the Japanese government has selected Vancouver as the site of the office indicates the importance that my country attaches to the growing trade with this port." Japan now has diplomatic, consular and trade representation in Canada. The trade commissioner will work in co-operation with the consular service, Mr. Suma said.

The volume of trade between Canada and Japan has increased twenty-fold in the past 20 years, the new trade commissioner said.

Last year Canada's imports were \$13,000,000, and her exports to Japan were \$43,000,000, making a total volume of trade of \$56,000,000, or twice as much as in 1919.

Britain To Establish Flour Regulations

Minimum Percentage Of Domestic Flour Required For Each Loaf

London, England.—The British Government has definitely decided to establish regulations requiring a minimum percentage of British wheat flour in every loaf, milled in Britain, according to the agricultural correspondent of the "Daily Express" to day. The newspaper adds the minimum will be varying not a fixed figure and that the government's policy will shortly be published in the form of a governmental "white paper."

May Amend Foods and Drugs Act

Ottawa, Ont.—Hon. J. H. King, minister of pensions and national health, introduced a bill to amend the Food and Drugs Act in the House of Commons recently. This provides for analysts who are employed by the provinces or municipalities, and who are not members of the department staff to be designated "Dominion Analysts" while so employed.

Manufacturing Is Increasing On Prairies

All Three Provinces Are Sharing In Rapid Development Of Industry

Winnipeg, Man.—Progress of the manufacturing industry of the prairie provinces during the past year was testified to by C. E. Harvey, of Winnipeg, retiring chairman of the prairie division of the Canadian Manufacturers Association, at the annual meeting here.

Mr. Harvey said many new factories came into production on the prairies last year, the value of products produced in 1929 totalled more than \$340,000,000, and all provinces—Manitoba, Saskatchewan and Alberta—shared in the development.

Saskatchewan, famed as a wheat producing area, can now also lay claim as a manufacturing province of importance, said Mr. Harvey. Last year the manufacturing industries of the prairies distributed a pay-roll of more than \$75,000,000, and the general public are rapidly coming to the realization that factories have a definite value to the community. Industrial workers carried a "home market."

Amendment Was Defeated

Move For All-British Beer Voted Down In House

London, England.—The Conservatives lost their fight in the House of Commons for all-British beer. They had two amendments to the beer tax resolutions of the budget. One would diminish the increased beer duties proposed under the budget. The other would give a rebate on beer made from native-grown malt hops. But the chancellor of the exchequer was obstinate. He would accept neither.

Under a combined Liberal-Labor vote the first amendment failed an adverse majority of 131. The second found an adverse majority of 123.

DISCUSS BONDING OF COMMISSION GRAIN BUYERS

Ottawa.—Methods of protecting farmers from defalcations of commission grain merchants were discussed in the House of Commons Committee on Agriculture. It was pointed out that elevator operators were fully bonded to protect persons who stored grain with them. In the case of commission merchants protection to the same extent was not afforded.

The question was raised during a discussion of the new Grain Act by Hon. H. H. Stevens (Cons. Vancouver Centre), who thought there should be some provision in the act for the bonding of commission merchants.

E. B. Ramsay, chairman of the Board of Grain Commissioners, thought commission men might be put out of business if they were required to put up higher bonds than now.

Doubt as to whether commission merchants served any useful purpose was expressed by E. J. Garland (U.F.A., Bow River). He said the business was dying out and wondered if the services performed by these men to the trade compensated for the losses sustained through their occasional defalcations.

The commission men were an important factor in competition with elevators, said Mr. Ramsay. Their operations acted as a curb on the tendency of elevator companies to increase their charges.

In this case, Mr. Garland said it might be a good thing to raise the bonding requirements. Then those commission men who were able to make a profit from the business could still carry on and the farmers would be protected.

Strict penalties are provided in the new Grain Act for breaches of its provisions respecting commission merchants. A penalty of not more than two years imprisonment or a fine of not more than \$5,000 on indictment is provided for any person who buys, sells or arranges for the weighing, inspection or grading of western grain for reward without a commission merchant's or grain dealer's license.

Some discussion arose about this section, particularly a clause placing the burden of proof of innocence on the accused. Some members thought this was too severe and Mr. Stevens objected on the ground that it conflicted with the general principles of British jurisprudence. The committee has almost completed its routine review of the act. Many difficult and contentious sections have been left over and will be taken up at later sittings.

RESOURCES BILLS HAVE BEEN GIVEN SECOND READING

Ottawa.—Legislation for the return of the natural resources to the Prairie Provinces has moved forward rapidly in the House of Commons. Following the presentation of the budget, the bills respecting Alberta and Saskatchewan passed through the committee stage and were given second reading.

It then took up the bill providing for the transfer of the Peace River block and the railway belt in the province of British Columbia to the provincial authorities, which received similar treatment.

Most of the debate took place in connection with the Alberta bill and the Saskatchewan legislation passed with little discussion.

The discussion centred around an amendment to the Alberta bill designed to give that province certain rights contained in the agreement with the province of Saskatchewan which were not embodied in the agreement with Alberta.

The Alberta agreement for a Royal commission to investigate the financial relations between the province and the Dominion since 1905 in order to determine what sum should be paid the province, Hon. Lucien Cannon, solicitor general, explained.

The government of Saskatchewan wanted this investigation carried further back to 1870, the time of the taking over of the Northwest Territories by the Dominion. In addition, it was requested that the government consider the validity of restrictions placed on the province in connection with education. By the amendment these rights were extended to Alberta.

Hon. R. B. Bennett suggested that following the ratification of the agreements, parliament should pass an act to give full effect to the transfer which would take place when Imperial legislation was passed. Hon. Ernest Lapointe, Minister of Justice, said the government would take the matter into consideration and would do everything necessary to carry out the agreements.

Praise For Universities

Colleges Of Canada Have Greatly Impressed British Headmasters

Edmonton.—Glowing praise for the universities of Canada and that of Alberta in particular was offered by headmasters of English schools who visited Edmonton, at a dinner given by the provincial government in their honor.

Speakers during the evening stressed the wonderful opportunities which await British boys who come to Canada to finish their education under Canadian conditions and the important part such youths might play in the building of Canada.

The dinner was followed by the meetings of former British school pupils with the headmasters, the dinner having been primarily arranged to allow such renewing of acquaintances.

Premier Brownlee extended greetings of the provincial government to the visitors.

Livestock Ranch For North

Company Interested Has Applied To Ottawa For Lease Of Land

Prince Albert, Sask.—Prairie interests planning to expend \$200,000 in establishing a livestock ranch north-east of Big River, have applied for a lease on a third of a township in the vicinity of that town. It was revealed by L. G. Patterson, Dominion lands agent. He stated the area has been inspected by those behind the project and found to be ideal for livestock ranching.

Included in the livestock which it is intended to raise are sheep and Angora goats, Mr. Patterson has been informed. The application for a lease has been forwarded to Ottawa, where the matter is being handled. The scheme has not been divulged.

Returning To Canada

Montreal.—More than 2,000 French-Canadians who have been domiciled in the United States have made plans to return to Canada, according to Manager J. H. Prud'homme, Bishop of Prince Albert, Sask., who has been in Montreal.

Duchess Completes Trip

London, Eng.—The Duchess of Bedford, accompanied by the general, completed a round trip to Capetown when she landed at Croydon airport April 30.

Czecho-Slovakia exported \$1,017,000 worth of pencils last year.

Behind the Man!

BACK of every man—back of every family—back of every home, stands the Bank—the guardian of fortunes, the counsellor and friend of those who, realizing the uncertainty of to-morrow, provide for its emergencies out of today's resources.
